Commercial Drain Care

Drain Line & Grease Trap Treatment

If you're in a business where drains seem to clog over and over again, resulting in downtime and loss of revenue, our commercial strength Drain Line & Grease Trap Treatment may provide a welcome solution.

- ▶ Ideal for commercial locations such as restaurants or fast food locations. Heavier concentrations of waste products can clog drains quickly
- ▶ Roto-Rooter® Drain Line & Grease Trap Treatment, when used as directed, helps slow buildups in pipes
- ▶ Reduce the need for grease trap pumping by up to 65%
- ▶ Eliminates foul odors
- ▶ Consumes grease and organic waste and converts to carbon dioxide and water – so it is safe for the environment
- ▶ Use after a thorough cleaning of drains and grease trap pumping. Our service tech can install a Time Flow Meter to make sure proper dosage is applied and no product is wasted
- ▶ NSF Approved – safe for use around food areas
- ▶ Available in 5, 15 and 30 gallon sizes

Sugar Residue Digestant

If you serve sugared drinks or ice cream, you probably know what a “sugar snake” is. Any beverage tower can develop this problem. It's a buildup of sugar residue in the lines. And it can slow or stop the dispensing of drinks. That's what Roto-Rooter Sugar Residue Digestant is meant for.

- ▶ Always start by having lines inspected and cleaned
- ▶ Sugar Residue Digestant (SRD) is dispensed with a special Roto-Rooter Time Flow Meter
- ▶ Your service tech can set it up to apply just the right amount of treatment for your business
- ▶ The result? Virtually eliminate downtime due to sugar buildup in the lines
- ▶ It's a safe, non-toxic way to keep your lines and your business running properly
- ▶ NSF Approved – safe for use around food areas

Waste Digestant

Septic system? If you've ever had a problem you know what a nightmare that can be. Roto-Rooter Waste Digestant is specifically designed to aid in the rejuvenation of failed septic tanks and cesspool drainage fields.

- ▶ Specially enhanced bacteria, created just for septic systems.
- ▶ Environmentally friendly and non-toxic
- ▶ A concentrated solution that eliminates organic solids and restores the system to optimum conditions
- ▶ Let your service tech show you how effective this can be in preventing septic problems

Lift Station Grease Dissolver

If you have a higher flow system like a Lift Station or Wet Well organic waste buildup can sometimes cause problems. Roto-Rooter Lift Station Grease Dissolver can provide a solution.

- ▶ Safe, naturally occurring bacteria handle difficult organic waste problems
- ▶ Environmentally friendly and non-toxic
- ▶ The Lift Station Grease Dissolver gradually dissolves over a 30-90 day period giving you continuous treatment
- ▶ The Lift Station Grease Dissolver will reduce odor, sludge, fats, oils and grease buildup
- ▶ Available in 5, 10 and 30 pound blocks
- ▶ Let your service tech show you how effective this can be in preventing problems in high flow systems

Commercial Grade Septic & Cesspool Treatment

Roto-Rooter Septic & Cesspool Treatment is a commercial-grade product that breaks down the problem elements in any septic or cesspool system .

- ▶ Unique, high potency formulation of specially cultured bacteria
- ▶ Contains growth promoters for vigorous bacterial activity
- ▶ No solvents and environmentally safe
- ▶ Approved for use by municipalities and water treatment facilities
- ▶ Also available in a special, heavy-duty formula (Roto-Rooter Heavy-Duty Septic Tank and Leechfield Treatment)
- ▶ Let your service tech show you how to eliminate septic and cesspool problems the easy way – with Roto-Rooter

Urinal Blocks

Any business that has restrooms with urinals for patrons or employees needs to keep it smelling fresh and eliminate potential blockages of the drain line. Roto-Rooter Urinal Blocks are the answer.

- ▶ Citrus fragrance
- ▶ Eliminates calcium buildup in the lines
- ▶ Screen trap to block debris from entering the line
- ▶ Each four ounce block will last for approximately 500 flushes
- ▶ A safe, easy way to prevent problems
- ▶ Available with or without the Roto-Rooter logo
